

## Community Agenda for America's Public Schools

The Board of Trustees of Rockland 21C has endorsed the Community Agenda for America's Public Schools, an action plan to ensure that all children enter school healthy, ready to learn and succeed.

Key national leaders from 124 other education, youth development, community engagement, health and social services, and higher education organizations have signed on to this set of strategies and solutions that make it possible for communities to support public education.

For all students to realize their optimal development, the Agenda suggests that organizations and members of the community must become active partners in addressing challenges in the lives of youth, their families and neighborhoods, enabling schools to remain focused on their core mission of education.
